

Founded in 1970, the United States Association of Former Members of Congress (FMC) is a bipartisan, nonprofit, educational, and public service organization.

Chartered, but not funded, by the U. S. Congress, FMC has approximately 550 members representing the U.S. Senate and House of Representatives. The Association's domestic and international programs promote improved public understanding of the role of Congress as a unique institution, encourage public service, and strengthen representative democracy abroad. FMC is funded through grants, contributions, membership dues, and the Statesmanship Award Dinner. FMC does not receive any taxpayer dollars to conduct its programs.

Among its numerous projects, FMC oversees international legislative training and election monitoring efforts, partnering with government agencies, private foundations, and other organizations in legislative training and democracy building programs throughout the world. FMC also oversees legislative liaison ventures via its Congressional Study Groups on Germany, Japan, Turkey, and Europe. These highly successful Study Groups cultivate dialogue between current Members of Congress and their colleagues in parliaments overseas. Additionally, the *Congress to Campus Program* allows FMC members to share their knowledge and experiences with the students and faculty of college campuses across the United States, as well as overseas. Your support of the Fifteenth Annual Statesmanship Award Dinner will help ensure the continued success of FMC in its educational, research, and public service endeavors.

We thank you for your support. FMC is a 501(c)(3) tax-exempt organization.
